Att: Mrs. Purvi Thakkar

Dear Madam

PERFORMANCE OF THE ANSI 6X4-10 PUMPS

Further to your request, we submit the following:

ChemSA Industrial Cleaning Services Pty (Ltd) delivers a chemical cleaning service to major installations in South Africa which can be pre-commissioning and maintenance cleaning. ChemSA performs chemical cleaning on large volume installations like towers, boilers, drums, condensers and pipe lines by circulating the chemicals through the systems using the ANSI 6X4-10 pumps mounted on skids.

These pumps are reliable and performs according to the design parameters. Recently ChemSA cleaned a recovery boiler with a 70 meter head and the pumps easily circulated the chemical solution with a constant flow of 250 m³/hr per pump. These pumps operated for a period of 14 days, 24 hour per day without any defects.

ChemSA will definitely procure more of the pumps for future projects.

Yours sincerely

ChemSA Industrial Cleaning Services (Pty) Ltd
